

This diagram shows how curriculum levels typically relate to years at school. Many students do not, however, fit this pattern. They include those with special learning needs, those who are gifted, and those who come from non English-speaking backgrounds. Students learning an additional language are also unlikely to follow the suggested progression: Level 1 is the entry level for those with no prior knowledge of the language being learned, regardless of their school year

Junior grades that are reported will have one of the following grades;

- Well below
- Below
- At
- Above

These refer to the grades for the year level. For example, if your child is in Yr 9, the grade will refer to Level 4. A student in Yr 10 will have grades relevant to Level 5.

Grades reported with a letter after them, for example 4B, 4P or 4A give an idea of how well a student has achieved at that level; Basic, Proficient or Advanced.
