FOREWORD

When post-primary education began in New Zealand, it was, naturally, modelled on the systems which were in operation in England and Scotland. The first Grammar or High Schools established carried on the English and Scottish traditions that a good education was one based on a study of the Classics and of Mathematics and that character-building would come in large measure from the disciplines which these studies demanded. Even Science, in our first school, was suspect as a proper study for the pupils. Post-primary education was also restricted to a select few. Only those whose parents could afford the high fees, and the very small group of scholarship winners were able to continue their education beyond the sixth standard. Despite the small number of pupils and in most cases inadequate buildings and teaching facilities, the few secondary schools that were established in nineteenth century New Zealand did succeed in transplanting many of the best traditions that were characteristic of the schools of the Mother Country. To those who established, guided and directed those first secondary schools we owe a debt of gratitude. We enjoy what they established and consolidated. From them we were able to inherit a post-primary education system, adapted to our special New Zealand needs and with a tradition well worth preserving.

However fine an educational system may be, it cannot afford to stand still. It must adjust to the needs of our changing times. Our Papakura High School is one of the many new schools built to meet the demands of a New Zealand which has grown beyond the pioneering days. In place of a curriculum limited to the Classics and Mathematics we have

a wide variety of subjects ranging from Latin to the practical Woodwork, Metalwork, Typing and Homecraft. Only a small proportion of the pupils, about ten per cent., take Latin in their course and about fifty per cent. full Mathematics. Science has steadily tended to gain priority as the study preferred by many of the ablest pupils. Fully two-thirds of the entrants to the school elect to take one of three practical courses, leaving but one-third to take what was once the only course offered in a high school. The post-primary school is no longer for the few—it is for all, irrespective of their wealth or ability.

These changes, most of which have come about since the last war, have called for adjustments in teaching, in what has to be taught and in the relationship of the post-primary school to the district it is serving. The greater task, however, is to see that in these changes we preserve inviolate the fundamental aim of developing in our schools those qualities which are essentials of good citizenship. This was the tradition which the past has handed on to us. If we in Papakura High School live up to our motto, "Summa Pete" ("Seek Thou the Highest"), then we can be sure this tradition will be preserved.

A. J. CAMPBELL, Principal.

EDITORIAL

1958. What will this date conjure up for us in future years, as we leaf through this school magazine and smile at the scrawled autographs on the back cover? For each form had its individual character, each year at school was memorable for different reasons.

For some of us it was our first high school year. At first uniform and shoes were irksome after the barefoot freedom of primary school days. It took time to get used to our new responsibilities; the corridors seemed endless, confusingly alike; the teachers were strange remote figures. For others of us, eager to test ourselves in the larger world outside the school, it was our last school year. Moreover, 1958 was to see the last of the foundation pupils leave.

Perhaps some of us will remember the special events of the year—the school dance, the sports trip to Taumarunui, the cross-country run, or the break-up ceremony. Others will think of the ordinary incidents—the time the headmaster caught us running in the corridor, some humorous classroom incident, or the morning prayers in the big blue-girdered hall with the headmaster and staff on the newly-curtained stage.

Much had been done to give us an appreciation of beauty. Pictures by Picasso, Degas, Gauguin and other famous artists had been hung in the foyer where the afternoon sun streaks the pastel-tinted walls. Playing-fields and gardens had been established; school entrance gates were planned.

The result of this work had been the harmonising of the school with its surroundings. As our traditions had grown we had formed a consolidated body—a community within a community. In it our teachers attempted to mould us to fit into society, yet at the same time tried to educate us to a point where we could make our own choice of the kind of life we intended to live. We were taught self-expression and, along with it, self control. In an increasingly material world, and one in which conditions were tending to tighten, we learned the facts of our various subjects, but at the same time we were also taught abstract values, ideas and principles. We might not always agree with them, but we could be thankful that we had the right to disagree.

In the thirds we had been initiated. In the fourths we had made lasting friendships and got into untold mischief. In the fifths we had undergone the discipline of working for school certificate. In the sixths new regions of thought had been opened up for us. Whatever we had done, whether we were chosen for the sports team or not, whether we failed or passed the exam., we would always remember 1958 at Papakura High School.

—A.R. (V.L.B.)

PRINCIPAL'S REPORT

The following are extracts from the Annual Report presented by the Principal at the Prize-giving in 1957:—

In presenting this report for 1957, I have to record a further increase in the school roll. In 1956 the school had grown to 640. This year our March return showed a roll of 697. It would appear from the statistics of the contributing schools that the roll for next year and for 1959 will be around 700.

The external examination results for 1956 were quite satisfactory. In University Entrance six pupils were accredited and sixteen sat the examination. Of these, seven were successful, giving a total pass of thirteen out of twenty-two. In the School Certificate Examination one hundred and nine pupils, of whom one hundred and three were third-year pupils, sat. Of these sixty-three gained passes, twenty-one pupils were granted Endorsed School Certificates, and two Higher Leaving Certificates. In the Chamber of Commerce Examinations five pupils passed the Hand-writing Examination, seventeen the Junior Typing, six of these with Distinction, and one the Shorthand test. In the Pitman's Shorthand Speed Examination nine out of thirteen pupils gained passes.

The equipment of the school has been added to throughout the year. One of the "pre-fab" rooms was converted into a "lab. cum workshop" for the III General and IV General forms. This has enabled excellent work to be done with the boys in these forms. £100 was spent in obtaining basic equipment for the orchestra. Under Miss Bruce's wise direction we have been adding steadily to the pictures of the school.

The grounds are in excellent condition. With all buildings completed it was possible this year to undertake the planting of trees and shrubs. A special tree-planting day was held and the results of that day you can all see. I wish to thank Mr. Cornwell for the work he has done in planning the lay-out of the grounds and Miss Thompson for the work she has put into the flower gardens.

In sports and athletics the school has had a very successful year. Pupils did very well in the South Auckland Post-Primary Athletic meeting, and the girls scored very well in the Auckland Girls' Inter-secondary School Sports, and in the South Auckland Cross-county Run the School Senior Team came first. In Rugby Football the First XV won all their games, both in the Competition and the Inter-school matches. The Boys' Hockey XI won the Second Grade Section of the Auckland Secondary Schools Competition. In Basketball, the

girls won the Melville Cup, which is the trophy for the Knock-out Tournament held during the Auckland Field Day.

Staff for the next four or five years threatens to be a major problem in post-primary education, and this school, with others, must expect to be forced to make difficult adjustments. This year we lose two members who have been with us from the foundation year—Miss B. E. Thompson, who goes to Lynfield College as Senior Assistant Mistress, and Mrs. Macaulay, who is going to take up full-time home duties. We congratulate both upon their promotion. It is with real regret that we see them go, as their work has been in each case outstanding, and in the influence they have had on the girls this community is very much in their debt. Mr. Miller has left for a year's refresher in England. We shall miss him very much, but we are very much comforted to know he is coming back to us.

School life, if it is to be effective, must be woven into the texture of the national life. In this there is always a danger that the community and the nation may, under stress of circumstances, put pressures on the school which are both unfair and unhealthy. In this dawning age of man-made satellites and guided missiles, the call is for our best brains to be dedicated to research in science, and to the application of the new scientific knowledge. We are all acutely aware of the struggle which is going on between the Free World and great Communist Powers, to gain and apply this knowledge, a struggle which at the present stage appears to be in favour of the totalitarian group. In our own school there is a marked tendency for the majority of the pupils of good mental ability to elect to take science subjects, and I have no reason to believe that in this we are different from other secondary schools. This is quite a natural move as the climate of thought favours scientific achievement and the economic rewards are good, particularly to those who direct and make use of the application of scientific discovery. We must not forget that there is another side of national and individual life which the nation, the community, and the school must cherish and keep inviolate. I refer to the study of Literature, not only our own heritage in this, but that of at least one other great nation; to History, which is so necessary to a sane appreciation of our civilisation and our times; to Geography, which opens the doors to an understanding of our environment; to Art and Music, with their unique contributions to Man's full living, and to the practical crafts through which so many of our pupils find an outlet for creative energy. I do not for one moment wish to belittle the Sciences, their significance and their value, but they can be used for the good of

mankind only if mankind's modes of thought are healthy, and it is in this that the Humanities help to ensure wholesome-ness. The post-primary school must aim at a well-balanced course and defer specialisation as long as possible. In this I know we have the backing of the University, and Professor Mowbray, as a member of our Board of Governors, strongly advocates that those pupils who wish to qualify in his School of Engineering should carry their non-mathematical and non-science studies right up to the Upper Sixth Form.

It is rather alarming to find how quickly a highly-specialised course and the directing of enquiring thought into limited fields can kill appreciation in other regions of man's thought and exploration. There is a danger to society when its leaders have been denied a good liberal education in order to meet the needs of early specialisation. The function of the school is to endeavour to turn out a well-rounded personality, to avoid in the developing and expanding minds of the pupils an inability to see beyond the confines of their specialised interests and abilities.

We shall endeavour in this school to continue giving a liberal education as the best preparation for the most specialised of courses. In this we may in the future need the support and backing of the thinking part of the community.

STAFF CHANGES

Mr. E. M. Irving, B.A., left the school at short notice as a result of being appointed senior English teacher at Pukekohe High School. He was farewelled at a function arranged by the staff early in the first term. Our congratulations on his promotion.

Mr. G. S. Miller, M.A., B.Sc., went overseas for a year early in December, 1957, but is expected back for the 1959 session.

Mr. G. D. Thorburn, B.Com., A.R.A.N.Z., of the staff of Pahiatua District High School, was appointed head of the Commercial Department after the departure of Miss B. E. Thompson.

Mrs. V. Congdon, who had been on the staff of Nelson Girls' College, Greymouth Technical High School and Motueka D.H.S., replaced Mrs. Macaulay as homecraft mistress. Her husband, Mr. K. V. Congdon, who had been head teacher of a primary school in the Nelson district, was also appointed to our staff.

When Miss J. E. Atchison resigned in June in order to be married, after one year with us, Miss L. C. Parish, of

Rotorua High School, was appointed to succeed her. Miss L. A. Gummer, B.A., also resigned and after her marriage in December went overseas.

Miss Beverley Smith, who had been secretary to the principal since the school began, was also married during the year, and a former pupil, Miss Robyn Howie, took her place.

Mr. G. J. Wareing, B.Sc., joined the staff to teach mathematics. This is his first appointment.

Miss E. I. Wright, B.A., was absent on sick leave during the first and second terms. We welcome her back.

Mrs. T. H. Dawson, on leave from the staff of Kaitaia College, took up a relieving position during Miss Wright's absence, teaching English and Social Studies and giving valuable and much-appreciated assistance as pianist.

Miss J. E. Tarrant, B.A., formerly of Kaitaia College, has been relieving since April. After a year on the staff of Auckland Girls' Grammar School Miss Tarrant spent two years overseas.

We have been very fortunate in having a full staff all the year, and are grateful to the relieving teachers for helping to make this possible.

We have appreciated also the assistance of students from the graduate section of Auckland Training College. As teachers-soon-to-be they have been made welcome while on section.

END-OF-YEAR CEREMONY

The end-of-year ceremony and prize-giving was held in the Assembly Hall on Thursday afternoon, 10th December. Mr. G. T. Wood, chairman of the Board of Governors, presided.

We were fortunate to have as guest speaker Colonel T. Durrant. Colonel Durrant had occupied the position of chairman of the South Auckland Education Board and was chairman of the Putaruru High School Board of Governors. In humorous vein Colonel Durrant gave the pupils and the parents thoughts on education. Mrs. Durrant presented the prizes.

The school choir and orchestra gave items, which were much appreciated, and the singing of the whole school, con-

ducted by Miss P. Marshall, reached a very high standard. In many ways the 1957 end-of-the-year ceremony was a memorable one.

GIFTS TO THE SCHOOL

We should like to thank the following for their gifts to the school:—

Mr. G. T. Wood—for a set of prints.

The Parent-Teacher Association—for a lectern for the Assembly Hall.

OVERSEAS LEAGUE TRAVEL SCHOLARSHIP

In 1957 the Overseas League offered a grant to enable twelve secondary school boys to undertake a four-month conducted tour of the British Isles in 1958. The boys selected had to have University Entrance and to possess those qualities which would make them worthy representatives of New Zealand.

Papakura High School rejoiced when it was announced that Charles Akers had been selected as one of the group of twelve. Akers had gained his School Certificate in three years with very high marks and had in the following year been accredited for University Entrance. He had also been a most useful member of the Rugby 1st XV and been appointed as deputy head boy. We know from the report given by Mr. H. Henderson, who was in charge of the boys during the tour, that Akers was a most worthy representative of our school and of his country.

GIRLS' CAREERS

This year there has been a definite change in the choice of positions open to girls. The marked trend towards the employment of boys in vocations requiring a training period has made it imperative for girls to seek positions early, and with a maximum of qualifications. For example, the Hospital Board is accepting only boys for training as bacteriologists; this was once a woman's stronghold.

A worrying feature of careers work is that girls do not come early enough to seek advice. Most vocations require a candidate to have studied a certain specific group of subjects. If a pupil does not consider her career until the sixth form she will often find that she has not chosen the subjects for the position she is interested in. For example, a girl wanting to become a radiologist requires chemistry, physics and mathematics.

A new feature of the careers work this year was the "one-day" visiting scheme inaugurated by the Papakura Rotary Club. This was commenced during the August holidays and enabled pupils interested in office work, retail business, surveying, hospital work and teacher training to spend a day gaining first-hand knowledge of what such positions entailed. Although on a relatively small scale as yet, the scheme could become one of the most beneficial aids in advising pupils on their careers.

BOYS' CAREERS

Careers Advice is Free.

Many boys have sought advice from their careers adviser during this year, but there are many who have not taken advantage of the service. We know that many parents and boys have together decided the type of career to be followed—we can help these people, too. There are many questions demanding answers before finally deciding on your life's work—

Will the work keep you contented and happy?

Have you the natural ability and personal qualities for success?

What standard of health and education are required?

What training and study are required?

Your careers adviser can answer these and many other questions. If he hasn't the information he can get it for you. Information about University work, bursaries, local conditions and opportunities, apprenticeships and many other aspects of possible careers are available to you—make the best use of them.

ANZAC DAY SERVICE

On Thursday, April 24th, the staff and pupils assembled in the hall to remember and honour the soldiers who fell during both World Wars. Mr. Campbell opened the ceremony with a short introduction and the pupils then sang "A Hymn for the Nation." The reading from Ecclesiasticus, "Let us now praise famous men . . .," was taken by Richard Peacock, the head boy. Following this the school sang "I Vow to Thee, My Country." Mr. Milne, a member of the staff who served in World War II., gave the address. He reminded us of our debt to those soldiers who fought and died for our freedom. The whole assembly then stood and sang the National Anthem. The ceremony concluded with the playing of the "Last Post" and the "Reveille" outside the hall.

The following day, on the 25th April, the head boy and girl, Richard Peacock and Helen Cheadle, represented the school at the public service held at the Memorial in Papanui and laid the wreath on our behalf.

LIBRARY NOTES

The library has flourished this year. The number of library books has increased considerably, as we have put 150 new books in the fiction section and 175 in the non-fiction section, as compared with the very few which have been withdrawn from the library. Thanks to Miss Goodwin and Mr. Cornwell, who keep us working as well as doing their own work, we are keeping a steady flow of these new books going into circulation, and the daily distribution of books is being quite well managed.

The librarians for next year have been appointed, and are already doing their share in the running of the library.

Numbers of books have been presented to the library this year. The custom of presenting a book on leaving, as an appreciation of what the school has done for us, is growing. We apologise if any names have been omitted, as we compiled the list some time through the year. In future, all presentations will be acknowledge in the notes.

Books presented are: "Aspects of Modern Art," presented by Margaret Jolly (VI.A, 1957); "A World of Great Stories," presented by Judith Thorn (V.Pro., 1957); "Channel Dash," presented by Alan Traill (V.Pro., 1957); "Flowers for the Occasion," presented by Miss B. T. Thompson; "Green Kiwi," presented by Margaret Storey (V.Pro., 1957); "Gone With the Wind," presented by Raewynne Davies and Margaret Dickinson (VI.B., 1957); "Irish Sagas and Folk Tales," presented by Diana Taylor (VI.B, 1957); "No. 10 Downing Street," presented by Jocelyn Goertz (VI.A, 1957); "Poems of Shelley," presented by Anna Richnow (V.Home, 1957); "Seabed Treasure," presented by M. Dewstow (III.Voc.C, 1958); "The Scandinavian World," presented by Ross Palmer (VI.A, 1957); "The World Regained," presented by Lesley Young (V.Com., 1958).

GIRLS' CRUSADER UNION

During the year about seventy girls have been able to attend each weekly Crusader meeting. Our leader, Mrs. Higgins, has helped the girls to understand the Christian way of life by her talks and guidance. This year many girls have had opportunities to take an active part in our meetings, either by a prayer or a short talk. By this the girls are encouraged in their witness for Christ amongst their fellows.

One of the main events for both girls and boys this year was the Crusader, C.S.S.M. and S.U. Rally held for the first time in the school hall. We also combined with the boys in a Crusader "squash" in the second term.

In this term we also had two guest speakers. The Rev. J. G. Miller spoke to the girls about his recent trip to Australia, where he was a speaker at a Keswick Convention meeting. Our other speaker was Miss Gwen Baxter, a nurse, who has recently trained at the N.Z. Bible Training Institute. Later this year our principal, Mr. Campbell, addressed us. Miss Dingwall, the Girls' Travelling Secretary of the Crusader Movement, showed us some films of summer and winter Crusader camps. Many girls are now looking forward to attending camps with girls from other schools this summer.

This year Crusader badges were presented to six girls, each of whom gave a short account of her conversion.

Two teachers, Miss Wright and Miss Marshall, join in our meetings each Thursday with us. We are grateful to Mr. Campbell, Mr. Macaulay and Miss Marshall for allowing us the use of their rooms, and to Mrs. Higgins for her talks.

BOYS' CRUSADER UNION

Our Crusader Union is part of an inter-denominational movement, the aim of which is to show that the Christian life is worth while. This year the weekly meetings have been held in A.III and Messrs. Donnell, Owens, Rout and Walls have spoken to us on some aspect of the Christian life.

An increase in numbers has shown a greater interest by the boys, especially when outside speakers have addressed us. They included our principal, Mr. Campbell, Pastor D. L. G. Chalmers, Rev. H. W. Payne and Mr. P. Kemp, a graduate student. We combined our meetings with the girls to hear Mr. Noel Hunt, a missionary from Egypt, and Mr. Reg. Snow, a missionary from India.

In the first term we held a "squash" with the girls. Games were ably controlled by Mr. Walls, and after supper the film "Barabbas" was shown. Mr. Sowerby concluded with Devotions.

In the second term we held a rally at our school and over 100 pupils from Papakura, Pukekohe, Papatoetoe and One-who attended. After tea in H.IV we saw a Fact and Faith film, "Time and Eternity." At the public meeting which followed an address on "A True Light" was given by Mr. Bruce Lumsden, General Secretary of the Crusader Movement of New Zealand. Dr. V. C. Martin showed slides on the Crusader work in schools. He and Miss Josephine Dingwall, girls' staff worker, took part in a staff quiz conducted by Mr. Lumsden. Our local Crusaders provided a choir. About two hundred and fifty people were present. We are very grateful to our principal for allowing us the use of the school facilities for these functions.

This year's committee, consisting of I. Waller, M. Sowerby and G. Bull meets weekly with the adult leaders to plan the programme.

SOUTH AUCKLAND POST-PRIMARY SCHOOLS' PUBLIC SPEAKING CONTEST

The inaugural contest was held in our School Hall on the evening of Tuesday, 15th July. Eight entrants, representing four schools—Papakura and Pukekohe High Schools, Waiuku District High School and Wesley College—took part. The Rev. E. M. Marshall, headmaster of Wesley College, was in the chair.

We were highly privileged to have as judge Mr. L. P. Leary, Q.C., a gentleman of wide experience, both as a barrister and as a judge of oratory contests. His wise com-

ments, interspersed with felicitously humorous remarks, as he summed up his impressions and criticised each speaker in turn, were appreciated by all present—even those who were the objects of his shrewd wit! It was encouraging to see how many pupils and adults attended.

The placed entrants and their subjects were: 1st, Geoffrey Bolton (Wesley), "The British Commonwealth"; 2nd equal, Jacqueline Wills (Papakura), "Apartheid," Jillian Butterworth (Waiuku), "The British Commonwealth as a Co-operative Association," and Paul Norman (Papakura), "The Independence of India."

The other contestants were: Susan Brighthouse (Waiuku), "Post-war Commonwealth Problems"; Helen Clark (Pukekohe), "The Emancipation of Women"; Murray Noble (Wesley), "British Colonial Policy"; Enoch Tonga (Wesley), "The Suez Canal Crisis."

The conditions for the contest were very similar to those for the Overseas League competition for the Anthony Eden Cup. Jacqueline Wills was one of several competitors who also entered for the latter.

It is hoped that next year all post-primary schools in our area will participate.

Supper was served at the close to the official party and to entrants and their parents or escorts.

PAPAKURA HIGH SCHOOL PUBLIC SPEAKING CONTEST Senior Contest

The first annual senior public speaking contest was held in the High School Hall on Thursday, 26th June. The subject set was the same as that for the Overseas League contest, "Some Aspect of Twentieth Century British Commonwealth Affairs." There was a large entry and fifteen finalists took their places on the platform.

Jacqueline Wills (V.Com.), speaking on "Apartheid," won the contest. She raised the question of how the difficulties of racial segregation could be overcome and pointed out that there was no solution until the white accepts the black as his equal. Paul Norman (V.Pro.III), whose subject was "The Independence of India," was second, and Helen Cheadle, speaking on "Reasons for the Continued Association of Members of the British Commonwealth," was third. These speakers were eligible to represent the High School at the South Auckland Secondary Schools' speech contest to be held in the High School Hall on Tuesday, 15th July. Jacqueline Wills was entered as the High School representative in the

Auckland section of the Overseas League contest.

The judges, Rev. I. Kemp, Miss J. Goodwin and Mr. L. Cornwell, were impressed by the number of entries and the standard reached. They felt that the contest is likely to become highly successful and most valuable as a training ground for public speaking.

The other finalists were: Rosaleen Billingham (VI.A), "Great Britain, Egypt and the Sudan"; David Beard (VI.B), "The Development of Dominion Status in New Zealand"; David Francis (VI.B), "Immigration Within the Commonwealth"; Brian Ducker (VI.B), "The Twentieth Century Conception of the British Commonwealth of Nations"; Graham Bull (VI.B), "The British Commonwealth is a Family Kept United by the Crown"; David Payne (VI.B), "The Principle of Trusteeship as Regards Backward Peoples"; Elaine Leaming (V.Pro.I), "The Importance of the Middle East to the British Commonwealth"; Jillian Pederson (V.Pro.II), "The Central Government of the West Indies"; Jean McCulloch (V.Pro.II), "The Situation in Ghana"; Ethel Green (V.Com.), "Field-Marshal Smuts"; Robyn Dittmer (V.Pro.III), "The Colour Bar, Especially in the United States."

Junior Contest

Following the success of the senior forms and South Auckland contests, a junior contest was arranged for August 21st, a few days prior to the end of term. Finalists chosen from within forms were required to give a prepared and an unprepared reading and to make a short prepared speech. Messrs. Thompson and Thurlow acted as chief judges respectively to the Third and Fourth Forms, assisted by Mr. Cornwell and Misses Goodwin, Johnston and Marshall. Loyal and appreciative support was given to the contestants by their forms and the rest of the audience, and this event should provide useful experience for those who may be the senior contestants in later years.

The winners were:—Third Forms: 1st, Alan Dawson (III.Fr.II), "Franklin Roosevelt"; 2nd, Margaret Brown (III.Lat.), "Animal Pests in the New Zealand Bush"; 3rd, June Grove-Rogers (III.Fr.I), "Life in India." Fourth Forms: 1st, Diana Topham (IV.C-H.I), "Taj Mahal"; 2nd, Mary McKibbin (IV.C-H.II), "History of the Manurewa Children's Home"; 3rd, Jennifer Mitchell (IV.Pro.I), "Motor-cars."

Other contestants were: Robyn Chalmers (IV.Pro.I), Ray Ansell (IV.Gen.), Carol Lynn (IV.C-H.II), Robert Irving (IV.Pro.II), Jennifer Rockell (IV.Pro.I), Norma Boswell (IV.Pro.II), Robert Smith (IV.Voc.), Michael Sampson (IV.Voc.), Garry Bell (IV.Pro.II), Joan Knight (III.H.), Maureen Lorenzen (III.H.), Sylvia Miller (III.Lat.), Margaret

Galloway (III.Com.), Elizabeth Ross (III.Com.), Lynette Saunders (III.Fr.I), Luke Ballard (III.Fr.I), Alan Harris (III.Fr.II), Tom Bougher (III.Voc.A), Maurice Barton (III.Voc.A), John Jones (III.Voc.B), Terry Jenkins (III.Voc.C), Ian McFarland (III.Gen.).

THE SENIOR CHOIR

This year the senior choir, which is composed of fifth and sixth form girls, has performed on several occasions. Their first performance was at the Parent-Teacher Association meeting held in June, when the choir presented four songs—"Now on Land and Sea Descending," by Handel; "Humoreske," by Dvorak; "Ma Curly-headed Babby"; and "Evensong," by Handel.

On November 12th, the choir also presented a bracket of songs at the Papakura Honouring Old Age annual function. The girls sang "Hark, Hark, the Lark," by Schubert; "Shepherd's Dance," by E. German; "Skye Boat Song," a Scottish traditional; and the 23rd Psalm to the tune "Crimond."

This year for the first time the combined girls' and boys' choir will present the ceremony of "Nine Lessons with Carols" on December 8th. The service was first drawn up for use in Truro Cathedral, Cornwall, but became much more general in use when modified for King's College Chapel, Cambridge, in 1918. The lessons will be read by several pupils and members of the staff. It is hoped that this service will become a school tradition.

THE SCHOOL ORCHESTRA

This year we lost two of our violinists, but have gained a flautist and a trombonist. Our orchestra now consists of five violins, one viola, three 'cellos, two clarinets, one trumpet, one flute, one trombone and the piano.

The orchestra has had more opportunities to display its skill than in previous years. Our performances include playing at a Rotary luncheon on April 17th, when we played the "March" from "Scipio," by Handel; "Sailors' Dance," by Purcell; and also melodies from "Cavalleria Rusticana," by Mascagni. Instrumental items were also given by members of the orchestra.

The second performance was at a Parent-Teacher Association meeting in June, when a similar programme was presented. As the trumpeter was absent, Mr. Congdon, a member of the staff, kindly consented to play with the orchestra.

At the school prize-giving ceremony the orchestra will play several items, including the "Trumpet Voluntary," by Purcell, and two movements from "The Royal Fireworks Suite," by Handel.

Front row: Jennifer Rockell, K. McSweeney, Jan Whitwell, Miss Marshall, A. Rae (leader), E. Marshall, K. Fitzpatrick.

DANCING CLASS

This year, during the second term, a dancing class was held for all those interested from the fourth, fifth and sixth forms. The class, under the able direction of Mrs. N. I. Smith, of Remuera, was held each Monday, during the lunch-hour, and was a great success. About one hundred pupils attended and there appeared to be a few more girls than boys. By the end of the term the class was showing great confidence on the floor and it was obvious that members of the fifth and sixth forms could now attend the school dance with no worries.

To show its appreciation of the work done by Mrs. Smith the school invited her to the dance, and we all hope that she found a great deal of pleasure watching her former pupils thoroughly enjoying themselves.

THE SCHOOL DANCE

The annual school dance for fifth and sixth-formers was held on Thursday, 18th September, in the school assembly hall. It was an outstanding success and a just reward for the prefects who spent so much time on its preparation.

The hall seemed like a fairy-tale under-water scene. Glittering shoals of fish swam beneath fishing nets draped from the ceiling, colourful murals decorated the walls and a giant octopus gazed malevolently at us from the stage.

Hours of preparation and thought went into producing the delightful final effect. We have to thank Miss Bruce for supervising the decorations, and also the other staff members who with the prefects and sixth-formers worked hard all day hanging the decorations and arranging flowers.

Merv. Orr's band supplied the music for the evening and we were very fortunate in having an excellent M.C. in Mr. Thornton.

Our guests for the occasion were members of the Board of Governors, with their wives, and prefects from Wesley College and Pukekohe High School.

ATHLETIC SPORTS

The fifth annual athletic sports of the school were held in the school grounds on Tuesday, 18th March, when a large attendance of parents and friends enjoyed, with the pupils, a most successful and pleasant day. The improvement in the standard of athletics in the school was seen in the extraordinary number of new records established and in the keener and closer competition in almost every event.

SOUTH AUCKLAND SECONDARY SCHOOLS' FIELD AND TRACK ATHLETICS

This meeting, held at Pukekohe High School on Saturday, 22nd March, and attended by competitors from many schools throughout the North Island, took the form this year as a memorial to the late Mr. L. V. Bryant, headmaster of Pukekohe High School, who inaugurated the sports several years ago. Hundreds of spectators gathered in beautiful weather to see excellent performances by boys from most of the schools in the Auckland City and South Auckland areas, as well as from Waikato and schools as far afield as New Plymouth and Palmerston North. Many of the boys had won, or were to win, New Zealand under-19 championships. Consequently representatives from Papakura High School did well to hold their own in such august company, especially the following, who gained places in finals of events:—

SENIOR—220 Yards: G. Kelly 2. 440 Yards: G. Kelly 3. One Mile: L. Walker 3. High Jump: R. Peacock 3. Long Jump: R. Peacock 2. One Mile Relay: Papakura High School (G. Kelly, L. Walker, D. Simmonds, P. Sinfield) 3.

JUNIOR—440 Yards: S. Laird 3. 4 x 110 Yards Relay: Papakura High School (R. Matthews, P. Kelly, D. Lofroth, K. Hough) 2.

School Teams were:—

SENIOR: G. Bull, E. Fell, G. Kelly, R. Mita, R. Peacock, D. Simmonds, P. Sinfield, L. Walker.

INTERMEDIATE: B. Ducker, D. Francis, M. Kidd, T. McGarry, A. Newall, D. Peacock, K. Taylor.

JUNIOR: K. Hough, P. Kelly, S. Laird, D. Lofroth, K. Mason, R. Matthews, B. Rowlands.

AUCKLAND INTER-SECONDARY SCHOOLGIRLS' SPORTS ASSOCIATION

The annual meeting of this association was held at the Olympic Stadium on 12th April. Of the twenty-three schools which competed, St. Cuthbert's College emerged as the eventual winner. Papakura's senior representatives are to be congratulated on gaining third place in the senior points total.

Papakura High School were represented by—

SWIMMING SPORTS

Boys' and girls' school swimming sports, combined this year for the first time, were held on 20th February in the Ardmore Training College Pool. Our sincere thanks for the use of the pool are due to Mr. T. Wilson, principal of the college. The sports ran smoothly and the participation of the whole school created a higher pitch of enthusiasm.

TENNIS

Tennis, during the 1957-58 season, was held during sports periods at both the High School and South Auckland Sub-Association courts in Papakura.

The school championships, held at the end of the third term, 1957, were very popular and keenly contested.

Results—Boys' singles: R. Donald (Cargill Cup). Girls' singles: L. Schou (McDowell Cup).

TABLE TENNIS

Papakura High School entered three boys' and two girls' teams in the Franklin Secondary Schools' teams championships, held at Pukekohe on Saturday, 20th September.

The girls' "A" team reached the semi-final of their contest, which they had won the previous year. The boys' "A" team (D. Beard, T. Neil, B. Aston and I. Haszard) was successful in winning the Kirk Shield for boys' teams, defeating the Wesley College "B" and "C" teams and Papakura "B" by 6—0 in section play, then winning a hard-fought final by 4—2 against Wesley "A."

CRICKET

The 1957-58 season has been a successful one for all teams once again. The First XI continued in the Franklin Cricket Association competitions, this season in the newly-formed college section, in which we are the only team playing only boys still at school. We have had to fight as hard as ever to hold our own, but the team has played good cricket. All other teams have done well in their grades and have fully

justified our action last year in moving them up a grade. To strengthen cricket in the school for the future we entered a colts team of primary school boys in the Junior "B" Section and their season was also a very successful one. Our thanks are due, particularly, to the coaches of the various teams for the work they have done and the time they have given up to help their teams.

FIRST XI

The team has shown a great improvement this season and has fully benefited from competing in the Franklin Cricket Association, and a very high standard of cricket was soon attained.

Peacock, Ducker and Fell, the more experienced players, were ably supported by Francis, McGarry, Collecutt and Hunt, all of whom made outstanding progress.

Once again the Papakura Rotary Club provided the highlight of the season in our annual match. The team played an excellent game and worthily retained the Rotary Cup.

The team: R. Peacock (captain), D. Bryan, G. Collecutt, M. Davy, B. Ducker, E. Fell, D. Francis, E. Hobman, T. Howie, G. Hunt, G. Kelly, T. McGarry, M. McGregor-Hay, K. McSweeney, H. Marshall.

HARRIERS

On each Wednesday afternoon a group of boys, together with Mr. Cornwell and Mr. Wareing, could be seen running with great determination, somewhere within a two-mile radius of the school. The runs were of about four miles and during the season most of the local roads were covered.

No doubt the boys' fitness improved greatly through the winter and they felt the benefit in the annual cross-country championships.

Two teams' races were held during the season. The team members, together with their places, were as follows:—

v. Kelston:

M. Reid (3), M. Watkin (5), R. Couch (6), J. O'Hearn (7), D. Beard (10), I. Haszard (11), J. Cox (12), P. Graham (13).

v. Pukekohe:

M. Watkin (2), B. Peebles (3), D. Beard (4), I. Haszard (5), P. Graham (6), C. Dale (11).

Although in neither of these races a Papakura runner finished first, we won the teams' event in both.

SOUTH AUCKLAND CROSS - COUNTRY

On Saturday, 18th October, five schools competed in the South Auckland cross-country championships held at Waiuku. There were two grades, junior and senior, both of which Papakura succeeded in winning.

The teams, with their places, were as follows:—

SENIOR: L. Walker (1), time 13 mins. 10 secs.—record; G. Kelly (2), B. Ducker (6), B. Peebles (7), C. Marten (8), V. Grant (20). L. Walker won comfortably by about 200 yards. G. Kelly entered the track in fourth place and, in a dashing finish, passed two other runners to come second.

JUNIOR: G. Martin (1), time 17 mins.—record; D. Lofroth (2), J. Wilson (5) I. Haszard (7), P. Melsner (9), B. Laurie (10). Running well as a team the Papakura Juniors established an early lead. G. Martin led throughout and finished 100 yards ahead of D. Lofroth.

Teams results were as follows:—

SENIOR: Papakura H.S., 16 points, 1; Pukekohe H.S., 32 points, 2; Waiuku D.H.S., 36 points, 3.

JUNIOR: Papakura H.S., 15 points, 1; Pukekohe H.S., 24 points, 2; Waiuku D.H.S., 47 points, 3.

CROSS - COUNTRY CHAMPIONSHIPS

In ideal weather, on October 8th, over three hundred boys took part in the annual cross-country championships. The weather, sunny, but tempered by a light breeze, had much to do with the good performances recorded. Nevertheless, the winners in each grade, all of whom broke the existing records, ran excellent races. At least three boys in the juniors broke the existing record.

Main feature of the day, however, was L. Walker's third successive win in the senior event.

Individual results:—

SENIOR: L. Walker 1, C. Dale 2, G. Collecutt 3. Time, 19 mins. 47.5 secs.—record.

INTERMEDIATE: M. Reid 1, B. Ducker 2, B. Peebles 3. Time, 18 mins. 19 secs.—record.

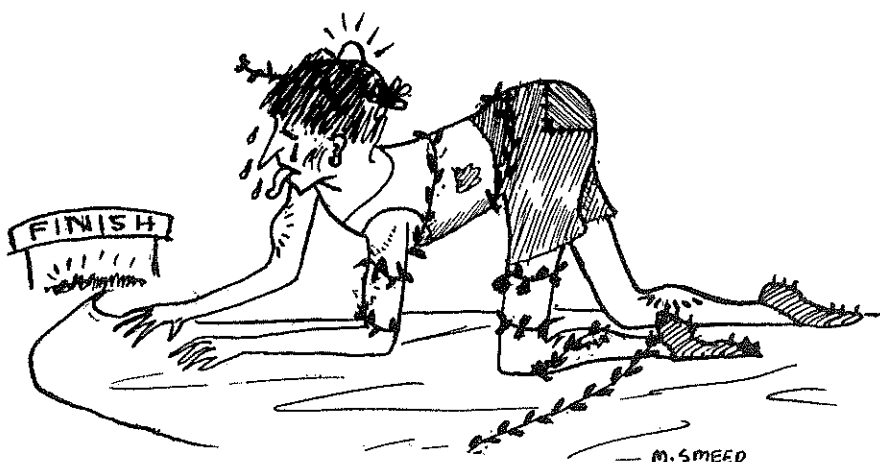

JUNIOR: G. Martin 1, D. Lofroth 2, J. Wilson 3. Time, 19 mins. 47.4 secs.—record.

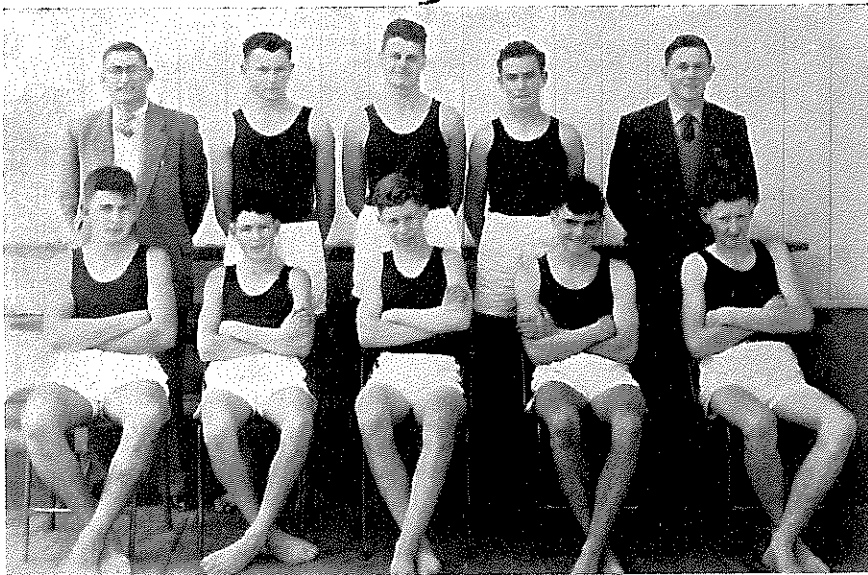

Form team results:—

SENIOR: V.I.B Science "A" team (C. Dale, M. Watkin, G. Kelly, G. Bull), 20 points, 1; V.I.B Arts "A" team, 57 points, 2; V.Voc., 67 points, 3.

INTERMEDIATE: V.Voc. "A" team (B. Peebles, D. Ross, M. Kidd, C. Blank), 53 points, 1; IV.Voc. "A" team, 60 points, 2; V.Pro.III, 78 points, 3.

JUNIOR: III.Voc.B "A" team (G. Martin, D. Lofroth, B. Laurie, N. Stevens), 26 points, 1; III.Gen. "A" team, 79 points, 2; III.Voc.C "A" team, 81 points, 3.

BASKETBALL

The 1958 season can be regarded as the best yet in the basketball history of the school, as the 1st and 4th teams were unbeaten throughout the season, both in their Saturday competition and regular inter-school fixtures.

This year we entered five teams in Saturday competition in Auckland in the newly-formed Collegiate section of the Auckland Basketball Association. These five teams performed most creditably and have set a standard which we shall have to strive to maintain. It is most encouraging to find the standard of the whole group so very high.

The "A" team won the "B" grade competition, with the "B" team runners-up in the same grade.

The "C" team were runners-up in the "D" grade, while the "D" team won the "E" grade.

Representatives: Maureen Barclay gained Senior "B" representative honours and Margaret Whale won her 3rd grade representative badge.

Next season will see the introduction of the international seven-a-side game and it is to be hoped that the very high standard which we reached this year can be maintained in the new game. Given an equal amount of enthusiasm, loyalty and team spirit as that displayed this year, we shall continue to gain results of which the whole school can be proud.

RUGBY FOOTBALL

The season has been another excellent one, and, though the 1st XV has had more losses than last year, the standard of football in most of the grades has shown a marked improvement.

It is five years since the inception of the Counties Secondary Schools' Rugby Football Union, and the success of these competitions is now fully established. Seven Papakura High School teams entered in the competitions, giving over 100 boys a game of Rugby every Saturday, and it was gratifying to see the number of boys who changed from Wednesday football and decided to play for the school.

Once again Papakura First XV won the open grade, and IV.A emerged as winner of their grade. We are again happy to tender our thanks to the Counties Union officials and referees who gave up much of their valuable times, especially one of our old pupils, Fred Jones, who is proving a first-class referee.

FIRST XV

The team again enjoyed a very successful season, winning the open grade of the Counties Secondary Schools' competition and suffering only two defeats. The match against King's College First XV provided the best Rugby, and, although beaten, the team played outstanding football. The highlight of the season was the trip to Taumarunui and the game played there. This was the first overnight trip undertaken by the school and it was a great experience for the boys.

The First XV was represented by: R. Peacock (captain), G. Kelly (vice-captain), C. Akers, D. Bryan, G. Bull, P. Clerk, D. Dalton, M. Davy, E. Fell, M. Gower, R. Laing, P. Lindesay, R. Mita, C. Olsen, K. O'Reilly, D. Peacock, P. Quinn, D. Simmons, A. Traill, E. Wipani. Coach: Mr. R. Marshall.

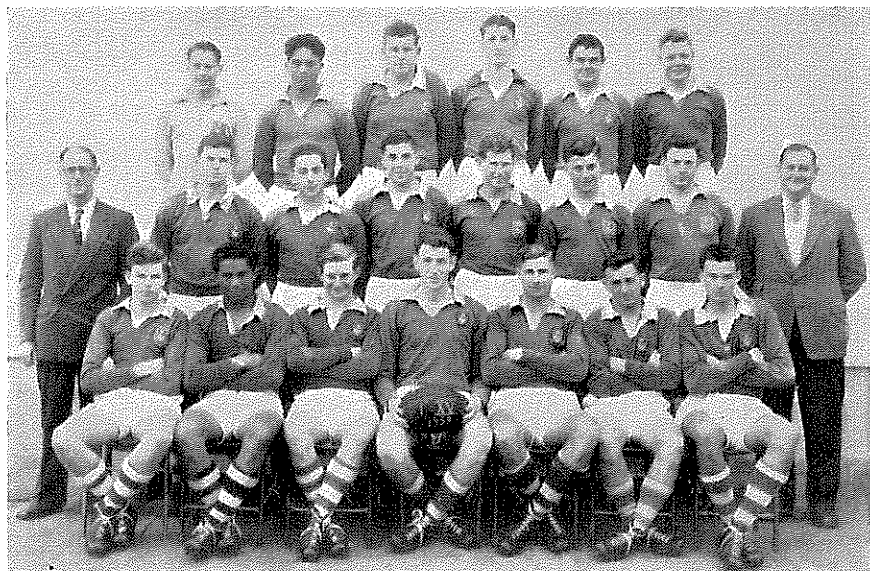

Competition results:—

	First Round	Second Round	Third Round
v. St. Stephen's B ...	Won 29— 3	Won 31— 3	No game
v. Pukekohe 1st XV	Won 24— 9	Won 9— 6	Won 14— 3
v. Wesley 1st XV ...	Won 8— 3	Won by default	Won by default
v. St. Stephen's "A"	Lost 0—11	Won 3— 0	Won by default
v. Wesley "B"	Won 35— 0	Won 17— 0	Won by default

Played, 14; won 13, lost 1. Points for, 170; against, 38.

Non-competition results:—

v. Henderson High School	Won 17— 3
v. Kelston High School	Won 17— 3
v. Thames High School	Won 19— 3
v. King's College 1st XV	Lost 3—21
v. Taumarunui High School	Won 25— 6
v. Auckland Grammar Second "B"	Won 9— 3

FIRST XV

Back row: D. Simmons, R. Mita, C. Olsen, D. Peacock, D. Dalton,
C. Akers.
Middle row: Mr. Campbell, K. O'Reilly, P. Clerk, P. Lindsay, G. Bull,
M. Davy, E. Fell.
Front row: M. Gower, E. Wipani, A. Traill, R. Peacock (captain),
G. Kelly (vice-captain), D. Bryan, R. Laing.

SECOND XV

The Second XV had a successful season, showing a steady improvement in their standard of play. It says much for the spirit of the team that after losing to several teams, notably Papatoetoe and Pukekohe, at the beginning of the season, in return games these teams were beaten. The two games against the Onewhero First XV were undoubtedly the highlights of the season. We were twice narrowly beaten by this strong team and finished runners-up to them in the competition.

The team was represented by: D. Francis (captain), R. Whittle (vice-captain), E. Armstrong, J. Berry, M. Bothwell, K. Glasgow, D. Gleeson, P. Kelly, M. Kidd, S. Laird, B. McFarland, C. Oliver, E. Paul, G. Raymond, M. Reid, J. Siebert, D. Sinfeld, N. Smith. Coach: Mr. R. Walls.

Results of competition games played:—

v. Wesley	Won 3—0	Won 24—0	Won 42—3
v. Howick	Won 22—3	Won 8—0	
v. Onewhero	Lost 8—9	Lost 11—14	
v. Papatoetoe	Lost 0—9	Won 6—3	Won 5—3
v. Pukekohe	Lost 0—5	Won 27—16	
v. Waiuku	Won 27—9	Won 14—3	
v. St. Stephen's	Lost 0—9		

Results of non-competition games played:—

v. Henderson High School 2nd XV	Won 30—5
v. Huntly College 1st XV	Lost 3—23
v. Kelston High School 2nd XV	Won 25—0
v. Auckland Grammar School Third "B"	Won 8—6

Games played, 17; won 12, lost 5. Points for, 305; against, 123.

THIRD "A"

The team played its best football on dry grounds and was a hard team to score against. Lack of solidly-built forwards proved a handicap which good team spirit could not quite overcome.

The team was represented by: K. Thomson (captain), L. Lukey (vice-captain), W. Allen, L. Bilton, G. Chitty, R. Duder, C. Duncan, G. Glasgow, J. Irving, W. Laurie, M. Martin, S. Robertson, C. Shaw, W. Smart, K. Taylor, E. Thomas, G. Waugh. Coach: Mr. L. G. Thompson.

Games played, 20; won 15, lost 1, drew 4. Points for, 274; against, 47.

THIRD "B"

This team was formed during the second term from those boys not included in other Saturday competition teams. Consequently, as they had missed the early season team coaching, their season was not very successful from the match-winning point of view. However, the improvement in their play and the pleasure which they derived from the season's activities, are a credit to their coach, Mr. S. G. Owens, and to the keenness of the boys themselves, especially Radford and Lodge.

The team consisted of: C. Radford (captain), H. Lodge (vice-captain), E. Bailey, L. Beadle, A. Birch, D. Brunt, R. Crawford, V. Fitzsimmons, K. Mason, R. Mason, R. Matthews, K. McKenzie, B. Risetto, D. Russell, R. Sara, W. Smith, R. Taranaki, R. Wilkinson.

Matches played, 11; won 2, drew 2, lost 7. Points for, 23; against, 69.

FOURTH "A"

The past season has been a most successful one in this grade. Under the able captaincy of Graham Collecutt the team had an unbeaten record.

The team: G. Collecutt (captain), D. Cato (vice-captain), P. Ashby, L. Atkins, S. Bateman, C. Bennett, C. Blank, P. Coles, B. Fraser, D. Glasgow, S. Jameson, R. Lorenzen, P. Melsner, A. Newall, D. Ross, W. Thomas, J. Whitwell, P. Williams. Coach: Mr. D. R. Thurlow.

Results of competition games:—

v. Waiuku	Won 18—0	v. St. Stephen's	Won 34—3
v. Maramarua	Won 17—5	v. Onewhero	Won 15—0
v. Onewhero	Won 28—0	v. Maramarua	Won 11—5
v. Waiuku	Won 27—0	v. Waiuku	Won 11—0
v. Papakura "B"	Won 14—0	v. Papakura "B"	Won 32—6
v. Papatoetoe	Drew 3—3	v. Papatoetoe	Won 8—6
v. Pukekohe	Won 22—0	v. Pukekohe	Won 27—0
Non-competition games:—			
v. Henderson	Won 11—6	v. Roller Mills	Won 12—
v. Kelston	Won 17—0	v. Pukekohe	Won 21—0
v. King's College	Won 25—0		

Games played, 19; won 18, drew 1. Points for, 353; against, 36.

FOURTH "B"

The team met with limited success during the 1958 season. However, despite several losses, team spirit remained high and it was rewarding to see the margin of losses gradually reduced. Good wins were registered in the end-of-season games against Pukekohe High School and Auckland Grammar teams.

As captain and vice-captain respectively, Hunt and Fraser set an example to their team which played a major part in maintaining a fine team spirit and in achieving a great improvement in play.

The team was represented by: G. Hunt (captain), R. Fraser (vice-captain), C. Bennett, M. Bruce, I. De May, K. Fitzpatrick, E. Hobman, D. Howard, I. McFarland, C. McLeod, N. McSweeney, C. Miller, D. Robinson, A. Silby, E. Whyte, B. Wilmshurst, D. Wilson, H. Wilson.

Results summarised were: Matches played, 16; won 6, lost 10. Points for, 95; against, 120.

FIFTH GRADE

This year's competitions included a Fifth Grade, in which four teams participated. In all five rounds the games were hard fought, and, although Papatoetoe High School emerged the clear winner, the school team succeeded in winning one match against them and drawing another. Losing only one match in the last seven, Papakura were runners-up in the grade.

The team consisted of: I. Brash (captain), R. Ancell (vice-captain), P. Bentley, A. Dawson, H. Fair, I. Jamieson, T. Jones, M. King, D. Lofroth, R. Irving, D. Melser, G. Martin, G. Overton, C. Pickard, J. Ralph-Smith, D. Rissetto, B. Roud, N. Stevens.

Competition results were:—

v. Papatoetoe: Lost 3—8; Drew 3—3; Lost 0—9; Won 5—3; Lost 6—13.
 v. Pukekohe: Won 17—0; Lost 3—13; Lost 3—16; Won 9—6; Drew 0—0.
 v. Wesley: Won 9—3; Lost 0—5; Won by default; Won 10—3;
 Won 5—0.

Non-competition matches:—

v. Henderson High School
 Won 6—0 || v. Kelston High School | Lost 3—9 |

Matches played, 16; won 7, lost 7, drew 2. Points for, 32; against,

91.

GIRLS' HOCKEY

This season there were over sixty Thursday hockey players, as well as two teams entered in the Secondary School-girls' Division of the Auckland Ladies' Hockey Association.

The First XI, unlucky not to gain more victories, put up a good showing against Auckland's top school teams, the forwards deserving special mention for dash and penetration. Playing in the top grade is the best way to reach and maintain a high standard of hockey in the school.

The Second XI, after a shaky start, greatly improved their play, largely through better understanding in defence. A long series of cancellations (including that of the Inter-Secondary Schools' Tournament) meant an unfortunate interruption and curtailment of the season.

We appreciated the support of parents, and thank especially Mrs. Blundell for her willing and valuable assistance.

The school teams were:—

FIRST XI: Ngaire Hughes (captain), Marie Blundell (vice-captain), Elizabeth Callis, Helen Cheadle, Jeanette Cleaver, Beverley Goertz, Gael Hesketh, Raewyn Mansell, Jill Steel, Julie Steel, Dianne Young, Joanna Zinzan.

SECOND XI: Anne Thomas (captain), Cherrill Downes (vice-captain), Pamela Blundell, Margaret Brown, Sherrell Duncan, Margaret Mawhinney, Janet Morrison, Joy Pyke, Anne Ruthe, Shirley Sewell, Noia Waugh, Willy van Wijk.

RESERVES: Rosemary Dent, Raewyn Lawson, Lorraine Riddick, Noeleen Shanks, Sheila Simpson, Jacqueline Wills.

Results of non-competition matches:—

First XI

v. Ardmore Drew 2—2	v. Pukekohe Won 6—2
v. Henderson Won 4—2	v. Taumarunui Won 3—1
v. Huntly Lost 3—2	v. Thames Lost 3—2
v. Kelston Won 4—2		

Second XI

v. Henderson Won 2—0	v. Kelston Won 4—0
v. Huntly Won 3—1	v. Thames Won 3—2

BOYS' HOCKEY

The 1958 season has been an eventful and very creditable one. As a result, we feel that our teams are earning an ever-widening reputation as both forceful and fair opponents. Apart from the successes achieved by our senior teams, the most pleasing feature this year was that, for the first time, sufficient keen, young players were available for us to enter a Third XI in a Saturday competition. The coaching and experience these boys received will make them much more fitted for playing in future senior teams.

GIRLS' FIRST HOCKEY XI

Back row: D. Young, E. Callis, Miss M. Johnston, B. Goertz, H. Cheadle.
 Front row: J. Zinzan, J. Cleaver, G. Hesketh, N. Hughes, P. Steel,
 J. Steel, M. Blundell.

BOYS' FIRST HOCKEY XI

Back Row: J. Allcock, D. Payne, L. Merry, A. Hart, L. Paver,
 Mr. J. Macaulay.
 Front row: J. Marten, M. Barrowcliffe, B. Ducker (vice-captain),
 L. Walker (captain), K. Clarke, I. Keals, G. Webb.

FIRST XI

For the second year in succession the First XI won the Auckland Secondary School second grade championship, defeating all its opponents in Section "A," except Auckland Grammar School Second XI, with whom two matches were drawn. B. Ducker, L. Merry, D. Payne and L. Walker were selected for the Second Grade representative team, which, captained by Walker, defeated a Hamilton boys' representative team by 3 goals to 2.

We express our thanks to Messrs. Hardie and Farley, of Patumahoe, for their competent umpiring of several non-competition games.

Again this year the highlight was our trip to a N.Z.S.S.H.A. tournament, this time at Te Kuiti, where the team, largely due to its tenacious team play, secured second place. B. Ducker was the first Papakura boy to be selected for a N.Z.S.S.H.A. representative team, which defeated a Waipa Juniors' team by 3 goals to 2. Ducker, as centre-forward, scored twice. During our short stay we visited the Waitomo glow-worm cave and the Waitomo Cement Works and enjoyed a most successful dance held at the High School. We came away greatly appreciating the very kind hospitality and efficient organisation of our Te Kuiti hosts.

First XI players were: L. Walker (captain), B. Ducker (vice-captain), J. Allcock, M. Barrowcliffe, K. Clarke, A. Hart, I. Keals, C. Marten, L. Merry, L. Paver, D. Payne, G. Webb. Reserves: G. Skipper, J. Mowbray.

Competition results:—

	First Round	Second Round
v. Selwyn	Won 6—2	
v. King's College Second XI	Won 11—1	
v. Mt. Albert Second "A"	Won 10—0	
v. Auckland Grammar Second "A"	Drew 3—3	Drew 2—2
v. Penrose	Won 6—1	Won 4—2
v. Auckland Grammar Second "B"	Won 2—0	

Matches played, 8; won 6, drew 2. Goals for, 44; against, 11.

Non-competition results:—

v. Henderson	Won 5—0
v. Ardmore Teachers' College	Won 3—1
v. Thames	Won 4—0
v. King's College 1st XI	Lost 1—4
v. Taumarunui	Lost 2—3

Tournament results:—

v. Wellington College	Won 3—2
v. Te Kuiti H.S.	Won 11—0
v. Hamilton Boys' H.S.	Won 5—1
v. Napier Boys' H.S.	Lost 0—8
v. Wellington T.C.	Won 2—1

SECOND XI

The Second XI rapidly developed a keen team spirit and sense of combination, with the result that they had an unbeaten record throughout the season, easily winning the Third Grade "B" Section of the Auckland Secondary School championship.

Second XI players were: K. McSweeney (captain), I. Waller (vice-captain), N. Clark, P. Clerk, D. Deadman, B. Denton, M. Hayes, R. Herkt, K. Hough, R. Johns, D. McKenzie, H. Marshall, C. McAnnalley, M. Paver, R. Williams.

Competition results:—

	First Round	Second Round
v. King's College "B"	Won 8—0	
v. Auckland Grammar Third "B"	Won 11—0	
v. Takapuna	Won 12—0	Drew 4—4
v. Penrose	Won 6—0	Won 6—2
v. Papatoetoe	Won 9—0	
v. Westlake	Won 4—0	
v. Mt. Albert Third "B"	Won 3—0	Won 3—2

Matches played, 10; won 9, drew 1. Goals for, 66; against, 8.

Non-competition results:—

v. Auckland Grammar Third "A"	Won 3—1
v. Pukekohe	Won 6—2

THIRD XI

The Third XI, which entered the Auckland Secondary Schools' Fourth Grade "B" Section competition, largely comprised first-year players. The boys, therefore, encountered very strong opposition from several more experienced teams. However, such was the team spirit and improvement shown that three of the last four matches were won, and the other drawn, against teams which had previously proved too strong.

Third XI players were: P. Amies (captain), M. Glasgow (vice-captain), F. Allen, B. Aston, J. Bartley, C. Bear, J. Blundell, P. Gibbs, N. Mathieson, D. Milne, D. Siddle, J. Wills.

Competition results:—

	First Round	Second Round
v. Seddon	Lost 0—10	Lost 0—5
v. Mt. Albert Fourth "B"	Drew 1—1	Won 2—0
v. Mt. Roskill	Lost 0—3	Won 2—0
v. Papatoetoe	Won 2—1	Won by default
v. Auckland Grammar Fourth "B"	Lost 0—5	Drew 2—2

Matches played, 10; won 4, drew 2, lost 4. Goals for, 9; against, 17.

Non-competition results:—

v. Auckland Grammar Fourth "A"	Lost 0—9

OUR TEAMS' VISIT TO TAUMARUNUI

The long-awaited first overnight trip by a group of school teams began on Thursday, the 17th July, when the 1st XV, the A basketball team and the boys' and girls' hockey 1st XI's set off for Taumarunui High School. The girls' hockey team travelled by railcar, but the rest, together with their coaches, went by Bonnici Motors' huge, articulated, 42-seater bus. We stopped for lunch at the Hamilton Lake, where everyone spent a very pleasant hour in the kiosk and the children's playground. During the trip through the farmlands of the Waikato and over the scrub and bush-covered hills south of Te Kuiti, we managed to keep up an almost continuous serenade of modern "hit" tunes mixed with some of the old favourite songs.

When we arrived in Taumarunui our billeters were waiting to welcome us and soon we were on our way to our ten-

porary homes, some being in the centre of the town, while others were on large sheep farms several miles away. Next day we returned to the school in an amazing variety of transport which ranged from buses loaded with primary school children to cars, trucks and motor-bikes. We spent the morning exploring the town's public buildings and shops, some being lucky enough to be shown over the plywood and veneer factory at Mananui, afterwards returning to the High School, where the homecraft girls provided a lavish and all-too-tempting lunch.

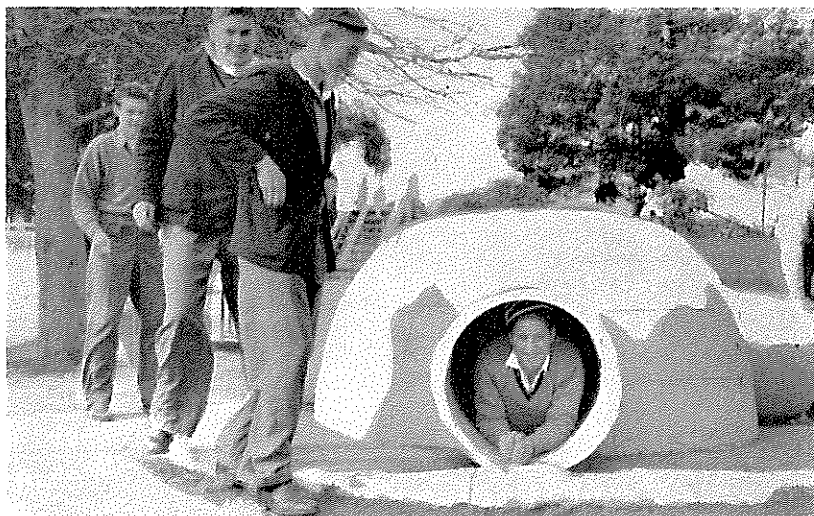

In the afternoon we were rather unlucky with the weather, parts of all the games being played during heavy rain squalls. The boys' hockey match was the first played and proved fast and rather unorthodox, largely due to the rough surface of the ground. The host team proved to have much skill and experience. We gained a slight lead in the first half, but gradually lost it in the second, being narrowly defeated by 2 goals to 1 after an enjoyable game. The girls' hockey teams also had a very pleasant tussle, play being fast. However, the final score was in our favour by 4 goals to 1. The basketball game proved a very exciting one, both teams having scored 12 goals by half-time. However, during the second half our stronger centre play gave us an advantage which resulted in our winning by 25 goals to 16.

The Taumarunui 1st XV gave our Rugby team one of the best games of the season. In spite of a steady drizzle, the ground was hard and fast, so this resulted in good back play. With our forwards in control, the backs had a virtual monopoly of the ball and combined well, only the home team's good defence preventing a higher score. We won by 25 points to 6.

In the evening we again assembled at the school and surprised ourselves by finding a reserve of energy in our tired limbs for one of the most enjoyable events of the trip, the social and dance. Despite the lack of a hall, this proved a great success.

All too early next morning, after a hasty round of good-byes and thanks, we wearily boarded the bus for the return journey. At Te Kuiti the girls' hockey team, which had travelled this far by railcar, joined us for a visit to Waitomo Caves, but on our arrival at the adjacent hotel we were very disappointed to hear that the road to the caves had been flooded by the overnight rain. We arrived back in Papakura late on the Saturday afternoon, very tired but grateful to our Taumarunui friends for giving us the chance for such a memorable trip.

LITERARY SECTION

ODE TO OUR SCHOOLMATES

Varied are the folk that you may meet
Inhabiting this school of ours,
Where youthful noise and tramping feet
Are usual sounds in daylight hours.
The types are varied, and many, too—
So if you'll listen I'll describe a few:
Well, some are shy, and some flirtatious,
But some are sly, and some vivacious,
Then there are those considered witty,
The handsome, ugly, plain, and pretty;
The tidy-minded, blessed by all,
And sinners who talk while leaving Hall;
The noisy, bane of those who teach,
The awkward, and the slow of speech;
From sixths, for whom much swot is set,
To thirds, who scarcely work as yet;
From four-foot-nothing to six-foot he-man,
From almost angel to worst young demon;
Lab.-boys who play with fate (S.4),
Cheeky girls sent out the door;
From impudent scamps who act the fool
To those who keep the courtesy rule:
But hating school with all their might,
Or admitting that it's quite all right—
The humble, those ready for a fall—
They're part of school; we're proud of all.
—J.L. (V.Pro.)

KNUCKLE-BONES

Clicks and jingles, dumps and juggles,
Coloured plastic jewels for knuckles,
Red and green and yellow piled,
Synthetic death held by a child.

See the five bones fall and scatter,
On the dust-dry earth they patter,
Children tumble toss with care,
Symbols of an adult's fear.

—A.R. (V.I.B)

THE EMPTY HOUSE

A few miles south of Keerfube, the Kaas River drops close to the hillside bank and runs deep and green. On one side of the river, red foothills curve up to the strong, rocky Kaas mountains, but on the valley side, the water is lined with trees. On the sandy bank beneath the trees, the leaves lie deep and so crisp that a lizard makes a great scuffling if he runs among them.

There is a path through the trees, a path hard beaten by boys coming from the village to swim. Before a low, horizontal limb of a giant teak is another path and the limb is worn smooth by the boys who have slid over it to follow the path.

Nokas scuttled down the track from the village, and with a furtive look over his shoulder scrambled over the branch and up the path. He was small for a ten-year-old, with hair like tangled wool. His eyes were restless in his strong dark face and his square hands spoke of strength.

He dived into the undergrowth and, after scuffling through the leaves on hands and knees, stood below the old tree with the curled leaves. Grandpa Noane said that misfortune would befall the tribe when the leaves uncurled. Nokas glanced at the leaves, and with a leap sped down the hill, pock-marked with rabbit burrows, and into the valley.

It was yet early morning. The air was damp and the forest dark. Fog hung like limp gauze among the leafy foliage of the trees marking the limits of the clearing. Nokas stopped before a small low building in the clearing. He sat on a smooth boulder and gazed at the house which he had found—his empty house. The thick mud walls were smooth and even, but the roof had a big dip in the centre where the rain collected, forming a bath for the smaller birds of the forest. Nokas would make a new roof just as Grandpa Noane had taught him. How carefully he would place each stick and weave in the straw; for his roof, simply designed and faithfully built, would not collapse. He would take mud from the river and seal his roof to keep out the rain. Later, he might bring his sister; she could clean a house almost as well as mother. They would play make-believe and she would cook for him and he would smoke a pipe like Grandpa Noane's. On rainy days they would sit inside the house, happy in the knowledge that the water could not come through their roof. Maybe they would catch some little green lizards, the sort with the yellow spots, and they would have clay marbles and play games with them on the mud floor. Perhaps they could make a garden.

Nokas dreamed, and all his childish fancies centred around the house, his first "very-own" house.

Nokas looked up and, noticing that the fog had gone, took one last glance at his house and sped back up the hill. His mother, angry at his long absence, asked for an explanation. Nokas told her that he had just been down to river. She was not deceived but, although she scounded him cunningly, she learnt nothing. Nokas ate his breakfast with utmost haste, swallowing huge mouthfuls without chewing. He hurried through his tasks, evading his mother's questions by appearing to be very busy. By the middle of the morning his chores were finished, and Nokas stealthily removed his father's hunting knife from its case, and, holding the cold, flat blade against his warm body, he ran down the track to the river.

Over the tree, down the path, through the bushes which scratched and tickled his back, Nokas ran until he arrived panting and breathless at the tree. He scrambled down the hill towards his house. As he drew near he halted in wonderment, for he could hear voices, a man's gruff tones, a woman's more mellow voice and the shrill wailing of a very young baby. Nokas looked down at his house. A heavy-featured woman was stooping over a small fire. A tall, broad-shouldered young man was cutting branches from the trees at the edge of the clearing.

The woman straightened her back and called her husband, who, shouldering his bundle of sticks, trudged back to the house. He tossed the sticks in a pile on the ground and was served food by his wife. The young couple ate in silence.

Nokas turned slowly and went home.

MONODY

Man is the greatest danger to mankind,
And will be whilst his covetous eyes can see
Herizon's magnet, which does draw him blind,
And, drawing him, consumes his destiny.

Now from impending doom they come arrayed
With swords and maces threateningly in sight,
The actors of the drama being played
For man's destruction at this fleeting night.

Unendingly from womb of war comes war,
And children die while fathers reap the sum
Of follies all their own—and evermore
The same, until at last God's laws be done.

TRAVELLING COMPANIONS

I packed the remaining garments wearily. Unable to make the necessary effort to shut the suitcase lid, merely flopped on top of it, and so did it up that way.

"Thank goodness that's over," I sighed. "Now, all I have to do is to make sure the twins are quite ready and to . . ." At this moment I happened to look out of the window, and, my weariness forgotten, raced down the stairs.

"Twins!" I shouted. "You'll get filthy there, and I'm almost ready to go. Come back here!"

Sadly the twins came back in through the gate, leaving their flabbergasted playmate still standing in the middle of the road.

The next five minutes were spent re-doing the twins' hair, tidying them generally and putting on their coats. Fortunately, before Sandra or Patti could get into any more mischief, the taxi arrived to take us to the airport. Thankfully I climbed in while the driver piled our luggage into the boot. The twins were usually good while in a car, and happily this was one of these occasions. There was a brisk ten minutes' run awaiting me at the airport, however, for Sandra and Patti liked "vestigating."

Once set in the 'plane the novelty of this experience almost quietened them for the first ten minutes. Then the dreaded liveliness returned, and questions were fired at me. I had noted, in an agony of apprehension, that there was a bald man opposite, and, as I had also feared, the twins had noticed.

"Mum, why does that man's head shine? Where's his hair? He looks like Uncle Bill, doesn't he, Patti?"

"No, he's too fat for Uncle Bill. 'Sides, Uncle Bill's got a kind face, and that man looks really ugly. Mum, what's he frowning like that for?"

Here I suggested, in a manner which I hoped was tactful, that they should look out of the window at the town below. Of course this involved a frantic rush towards the window, and a mild squabble to discover which window section had a better view, and who could look out first. That settled, an acrimonious discussion as to the merits of the view from a 'plane, a train, and a car occupied another five minutes. I had attempted to quieten the twins, rather effectively, but now I was becoming really angry.

"Sandra and Patti, you sit down on that seat this instant, and don't dare move for the next ten minutes. You think of the others on this 'plane."

Subdued, the twins actually did quieten themselves for a few minutes, and were really well-behaved—for them. Then we struck a patch of rough air, and I sadly watched Patti's

M. SNEED

face losing its colour. I caught the eye of the sympathetic hostess, and she brought several brown paper bags, with the suggestion that the twins might like to go to her room at the back of the 'plane. They complied with glee, and the last I saw of them for the next half-hour was Patti experimenting to see how much air the bag would hold before it burst.

Almost five minutes before the 'plane was due to land, the hostess returned the twins, with the valiant lie that they had been very good. From the twins' animated comments (Patti was now restored to normal), I gathered that the hostess had given them a free hand in whatever they wanted to do in her room—their idea of heaven, and mine of purgatory.

What a relief, when we landed, to see my husband awaiting us. I delivered us all into his hands with the weary comment, "Holidays! Thank goodness school starts again to-morrow!"

SOUTH AFRICAN APARTHEID

(Speech given by Jacqueline Wills in Senior Speech Contest)

Few other nations face such an acute problem as South Africa. In that country there are five widely different groups of people—the Native or the black, the Coloureds of mixed origin, the Asiatics, and two types of Europeans. Each race has its own customs, codes, and ideals. Unfortunately, many of these conflict, and there is in South Africa a bitter hatred of one race for the other. Whether South Africa will be able to maintain her present way of life, whether she will give in to her fears and perhaps founder in civil war, or whether she will be able to devise a new system of unity is a very compelling question to many of us in the world to-day.

We need to understand something of the South African people, their minds and their history, for the present generation did not create the colour problem.

War in the 19th century was frequent. If it was not between the blacks themselves, in the small tribal wars, it was between the whites and the blacks, or between the whites themselves. All these wars were over the ownership of land.

The Africaaners, who are of Dutch descent, believe that they have a God-given mission to carry the torch of Christian freedom in South Africa. They have no doubts whatsoever about white supremacy. Fundamental Calvinism remains alive in the Dutch Reformed Church to-day. The servile status of the black is seen as the fulfilment of the curse of Canaan. This church states that there be no equality between black and white.

The English, while not having the same religious beliefs, also cannot accept integration as the solution to this problem. Instead, they feel a need for limited segregation where the black could be educated to become a productive and therefore a more stable member of the community.

There is among both the Dutch and the English a strong feeling that the present course is dangerous, that it is impossible to leave the unfortunate native permanently in a vacuum between decayed tribalism and unattainable Westernism. They strongly feel the need for separation.

Apartheid springs from this attitude. It was only after the end of the war that the Nationalists put it forward as their colour policy. The word has become distorted and has been used quite incorrectly—it actually means in English “separateness.” There has always been some disagreement over the degree of apartheid originally intended.

During the last four or five years a great deal of hard thinking has been going on in South Africa. Two schools of thought have crystallised.

The first is for complete separation. This is urged by the Dutch Reformed Church and many other organisations. They feel it would be best to divide South Africa up into five different areas. They want the white man in his own area to do his own menial tasks, while the black man can rise to the top if he wishes in his area. This may sound all right in theory, but we cannot divide South Africa up into five different regions, for, as we know, South Africa’s wealth is not evenly spread over the whole of the continent.

The second is slightly more practical. The aim is to build up around the native reserves. This would result in a number of small manageable native reserves where an eye could be kept on the black as he slowly rises. This would mean a drastic cut in the economy of South Africa, for it would affect farming, mines, and industry.

Now we must take the Native’s point of view into consideration. What exactly has he gained from this policy of apartheid? Practically nothing. He has lost his land, he has lost his rights, he is in poverty, he is in danger of being flung into prison after committing any small offence, he is rather like a dog on a chain. So there is amongst the non-white people a feeling of hopelessness, a feeling that they will never be able to better themselves. The native in such a state is rather open to Communism.

Fear is at the base of the whole matter. The whites fear the blacks, and the blacks, in their turn, fear the whites. Now the white has every reason for being afraid of the black man for he is, numerically speaking, the dominant race. There are four non-whites to every white. The blacks fear the whites

for they know that the white is the master and that they are the under-dog and they cannot see any chance of this changing.

In my opinion, Albert Schweitzer's summing-up of the black man is a good one. Schweitzer lived for many years in South Africa and he learned to love and admire the non-white. He says "The South African is our brother, but he is our brother by several centuries."

There is no solution to the problem until the white man learns to regard the black as his equal, until he maintains a tolerance for the non-white. Until this occurs there can be no hope of unity in South Africa.

INSPIRATION

They tell me I have to write something for the School Magazine, but what? That is all very well if you are a budding English genius and you can write as easily as you speak. I wonder what I could do, for I am not an English expert by any means. I will have to do something, I suppose, because it is our homework this week-end. I can't write poems at all, so that's no good! It is no use writing an essay because I never have any ideas on how to round off the last paragraph. Whatever will I do?

I think I'll write a letter to the editor . . . Ah, there's a snag! What shall I write about? I suppose I could mention the need for a swimming-pool, or something to that effect. On reflection, I don't think I'll do that—the editor may demand a higher standard of contribution than I am capable of. It just looks as if the School Magazine is going to be without my contribution, unless I can think of something to write about.

Perhaps, I could do a book review . . . Yes, that's what I will do! Now, what is a good book I have read this year? But when you come to think about it, a book review is no good unless you say what happened at the end, and I never get that far. No, I won't do that either! Now I'm stuck—what will I do?

Oh, where is my imagination to-night? It must still be conjugating Latin verbs and finding "x". Perhaps, I'll write a limerick to-morrow night.

Goodness! I've nearly written the page and a-half that was set. I'll just s-p-r-e-a-d out the l-a-s-t line and I shall have finished. Maybe I haven't written the scientific article I was going to do, but I've done my English homework anyway!

UNEXPLORED TERRITORY

"To-morrow," yawned the fat old Maori, rubbing his stomach and leaning lazily against a tree, we will go to the island." And he pointed to the low, bushclad island, perhaps five miles away, like a tiny emerald in a sea of silver. His stout wahine smiled and nodded, and the smaller children, their dark eyes wide, whispered to each other and giggled. For Papa often talked of this island and promised to take them to it. It was always "to-morrow," however, and as long as there was a freshly-caught fish or straggly chicken for the cooking-pot their papa was happy. Because, while the children wandered through the bush or played and swam in the stream, and his wife plaited flax baskets and amused her smallest child, Papa would weed the kumara patch or bask lazily on a rock with a fishing line in hand, catching silvery kahawai and anaara. He enjoyed his life and his family were contented with him and his unfulfilled promises.

To-morrow came, and, as usual, Papa crawled out of the hut, rubbing his eyes to see a wisp of smoke from the cooking-house and a blue sheen on the sea beyond. He lumbered down through the dew to the stream, scattering chickens and muttering to himself. For this morning Papa was troubled—troubled by indigestion and his conscience. He headed for the cooking-house and his wife laying out the breakfast and sat down abruptly. The children clamoured around their mother, then stood silent and amazed when Papa said, "Now! To-day! We go to the island." His wife said "Eh," and his children forgot their meal and ran about saying "Wee-ee-ee! We go diving! We take our lines!—get some pipis!" and other disjointed expressions.

The family ate quickly, chattering excitedly—all except Papa, who chewed slowly, and then picked his teeth deliberately with a sliver of totava. With the meal finished, Mama sent children scurrying everywhere, tidying up, washing dishes and preparing a formidable kit of provisions. Occasionally she stopped her work and stared at her husband and the unaccustomed frown on his head. Then she would grunt, mutter to herself and continue her preparations. Then, when all was ready, Papa got up slowly, shouldered a weather-beaten spade and plodded stolidly down to the sand. The children ran ahead with the kits, and Mama picked up her smallest child and followed her husband.

At the shore Papa paused to look wistfully at the sun-baked rocks, then moved into the bush to the over-turned canoe hidden in the rocks. He gave it a preliminary tug, tripped and fell, to the accompaniment of the crack of splitting timber.

When he had arisen and fingered his shin tenderly, Papa

called several of the children, who helped him lift the boat out on to the open sand. For five, ten minutes he morosely studied the split keel and cracked bottom of the canoe. Slowly he looked up and gazed around. His wahine was sitting placidly on the beach picking flax, the two infants were digging in the sand, and the other children were far down the beach, exploring among the rocks. Papa smiled, looked happily at the sun, and stretched out on a large, flat rock.

Mama looked at him enquiringly and asked, "We go to the island?"

"To-morrow," said Papa.

THIS GAME OF RUGBY

Have you ever listened to a Rugby commentary over the air? If so, you can imagine the pictures passing through the mind of a listener who had never seen or heard of the game before.

". . . The referee has blown them up!" yells the commentator, "right on the New Zealand goal-line." Picture the evil referee lighting a short fuse, throwing it into the middle of the ruck and running clear.

". . . and Jones has sold a perfect dummy." Now, what does he need that dummy for? Doesn't he like the language of the opposing side?

"This giant forward is barging his way down the touch-line. He passes it in to Lineen who continues the attack, carving his way through the opposition, cutting the defence to ribbons." How cruel! "But the Australian forwards are there to save the day. They have taken over possession and are dribbling up the sideline." The announcer doesn't seem to think that this is unusual, even in grown men—so they must do it quite often.

". . . The fullback's kick has gone too far—over the dead-ball area. Drop-out twenty-five." This dead-ball area—is it the place where all the punctured balls are put? And when twenty-five drop out there must, by simple deduction, be only five players left on the field and one referee, unless you count those loose heads which appear from time to time. It seems impossible to play fairly with three players in one team and two in the other, although the referee could join in. But for some reason the other players return to the field and so the game continues.

". . . and Clarke has buried the Australian into the touch-line." Did this nice chap dig the grave first, or did he simply lift his poor victim above his head and dash him into the ground, leaving him there, ostrich fashion? Suddenly, the

announcer begins to sound really excited; his voice rises and he yells something like “. . . to Clarke, Lineen, McMullen, Walsh—and it’s a try, a try to New Zealand!” Apparently, these All Blacks have tried to do something. The commentator seems to feel very pleased that they have actually tried. He doesn’t say what happened after they tried, but the fact that they attempted it brings great pleasure in itself, judging from the loud noise issuing from the radio. Above the rabble the commentator can be heard again.

“Clarke is moving in to kick the goal. He’s kicked it. Listen! Listen! . . .” (a new type of ball perhaps) “It’s a goal! And there is the referee’s whistle for full time. New Zealand has won by seventeen points to six!”

Maybe our listener feels a little confused at the present, but the chances are that on returning home he will be singing the praises of the mighty New Zealand Rugby footballers.

A TOUR OF THE UNITED KINGDOM

During 1957, the New Zealand branch of the Overseas League decided to send a party of twelve New Zealand secondary school boys to the United Kingdom for a two-month tour, and I was fortunate enough to be selected as a member of this party.

The twelve of us, and Mr. Henderson, headmaster of Napier Boys’ High School, left Wellington on March the 8th of this year on the 17,000-ton “Rangitiki,” and travelled via Panama and Curacao to Southampton, arriving there on April the 9th.

Our first ten days were spent in London, where we were billeted with families in the South Kensington area. Those ten busy days included visits to the Houses of Parliament, Big Ben, the Mansion House, where we were presented to the Lord Mayor, the B.B.C. Television Studios, Wembley Stadium, where we saw the Amateur Soccer Cup Final, the Royal Mint and the Stock Exchange. We had dinners with Lord Freyberg, the Mayors of Chelsea and Kensington, the Parliamentary Under-Secretary of State, and the acting New Zealand High Commissioner, and during our “spare” time we saw all the famous London churches, museums and entertainments.

From London we travelled via Oxford to Cardiff, a city that impressed us all by its cleanliness and hospitality. After two days in Cardiff we moved on to Torquay, the summer resort on the south coast of England. From Torquay we travelled to Penzance, and from Penzance we moved north via Cheltenham to Birmingham. One of the more interesting of the Birmingham factories we visited was that of Stuarts, the

skilful operations that go into making a crystal vase or bowl, and we ruined several perfectly good wine glasses in our own clumsy attempts to grind them.

From Birmingham we moved north again, through Liverpool and the Lakes District to the Scottish Border. During our two weeks in Scotland we travelled extensively through Edinburgh, Aberdeen, Inverness, Glasgow and the Isle of Skye, where we spent perhaps the most pleasant two days of our tour as guests of Dame Flora McCleod at Dunvegau Castle.

Nottingham was our first stop after leaving Scotland, and our two-day stay there was followed by a free week, during which we could go where we liked. Six of the boys went to Paris, four stayed in England, and Andy Kirkness and I went to Northern Ireland, where we stayed with a friend of his in Belfast. While we were there we were able to make one trip into Eire, and another to see the Giant's Causeway.

crystalware manufacturers. There we watched the extremely

We were to have spent only one week in London before leaving for home, but we were all overjoyed to hear that the London dock strike would delay us another two weeks. This extra time gave us the opportunity to see the Derby and the Trooping of the Colour. Our only worry during these last weeks was lack of money, and when we left many of us were thinking that perhaps our parents would not be quite so pleased to see us if they knew that they would have to pay Mr. Henderson the ten pounds or so that each of us had borrowed.

The first effect that the trip had on us was a greatly-increased desire to travel more extensively, when we have the time and the money. I think that all the boys intend to re-visit Britain again, and not a few would like to live there. We were all very much impressed by the country and the people, who are just like ourselves and not in the least reserved. Perhaps England would not be so attractive to us if we had been there during their winter, or even this year's summer, but we were fortunate in arriving a week after the last snow and leaving just before this year's summer rain set in, and so we saw England at its best—in the spring.

FIVE AND TWENTY TEACHERS

Five and twenty teachers,
Despairing in their beds,
Thinking of the lessons
That passed by pupils' heads;
Thinking of their efforts
To make their pupils learn—
They can then much later
A lot of prestige earn.

Every night they're marking
Work that's gone before,
Noting out of twenty
The highest mark was four;
Setting extra homework
To make the standard rise.
Gaining exultation
From pupil's anxious cries.
