Curriculum - Papakura High School

Curriculum

Papakura High School offers a dynamic and challenging curriculum with a wide range of educational, cultural, sporting and social opportunities. Our core pedagogy is based on a model of 'Learn, Create, Share' with an expectation of students learning in the 21st Century. Many classes regularly utilise ICT as one of their teaching tools as we recognise the importance of being technologically skilled. Students are encouraged to set high academic and vocational goals and to develop the desire for life-long learning.

Junior classes

Placement into classes is based on academic information provided by contributing schools and confirmed by testing early in the year. To help with the transition from Intermediate school, Year 9 students are kept together as a class for the day. The priority of Year 10 is to prepare for NCEA Level 1. Students remain as one class to study English, Mathematics, Science, Social Studies, Health and Physical Education. They then choose two option subjects to study for the year.

Junior graduation programmes

Kia Puawai - Year 9 Programme

Kia Puawai transitions students from intermediate and prepares them for the Yr 10 junior diploma, Te Tohu Rangatira. Kia Puawai booklet

Te Tohu Rangatira - Year 10 Programme

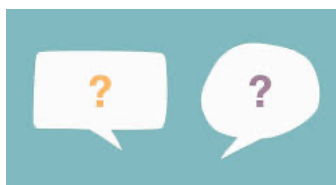

Te Tohu Rangatira prepares students for success at NCEA in Year 11.

Choose the subject area - Find that week's work

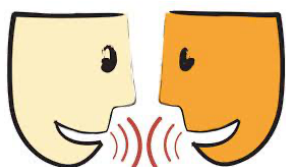

ASK your tamariki if they know what work they have to do - not **ONLY** for that day they are rostered home, but also for that week.

There will be work that they can easily do at home, but please ask for **SUPPORT** if you need it!

Don't forget to ask them how they got on with their work too - it may be

that you can help them if they were unsure, or just give them a chance to let you know what they've been up to!
